

STAINLESS SHEARED & EDGED PROCESS BAR

Penn Stainless Products stocks stainless sheared & edged flat bars in common stainless grades including 304, 304/L and 316L. Other stainless grades stocked include: 304H, 309/S, 310/S, 317L, 317LMN, 321, 321H, 347, 347H, 254SMO, Duplex 2205, 405, 410 and others. Sheared & edged flat bars are stocked in 12' random lengths, but our processing equipment enables customers to order sections in excess of 20' long. Many non-standard widths are in-stock or can be produced in just a few days. Need a piece of 3/8" x 3-1/4" wide in 316/L stainless? No problem. This is a stock item. All sheared & edged flat bars can be polished per customer request. Full processing is also available. Please contact a sales associate for more details about our stainless steel sheared & edged inventory and processing capabilities.
